

Wellness SAFE & LITE®

Seminole Wellness Safe & Lite® is a super premium, low starch, low energy, pelleted feed for adult horses and ponies.

Formulated for horses and ponies requiring lower calorie diets, Seminole Wellness Safe & Lite® is ideal for the overweight or active pleasure animal. High amounts of digestible fiber provide cooler calories that reduce hyperactivity. Whether on the trail or relaxing in the pasture, Seminole Wellness Safe & Lite® is the optimum choice for a healthy lifestyle.

Wellness SAFE & LITE®

FEEDING DIRECTIONS

Wellness SAFE & LITE® is a pelleted, low-energy, low-starch, 10% protein feed for adult horses and ponies to be fed along with good quality hay and/or pasture. Start the feeding program using the Daily Feeding Guide for the type of roughage fed and class of horse. After observing and/or weighing the horse for a period of time, increase or decrease the daily feeding rate to obtain the desired body condition or body weight.

Do not feed Wellness SAFE & LITE® on a free choice basis. Feed at regular times, with two or more equal feedings per day. Make all feed changes gradually, over a 7 - 10 day period. Increases in feeding rate should not exceed 1 pound per day for an individual horse. Delay feeding a horse that has been exercised or is exhibiting pain, fever or diarrhea. Wellness SAFE & LITE® weighs approximately 1.6 pounds per dry US quart. Feed hay and/or equivalent pasture at the rate of 1 to 2 pounds per 100 pounds of body weight daily. Provide a free choice horse mineral such as Seminole Grass Balancer 16:8 Mineral or Alfa Balancer 12:12 Mineral on continuous basis. Provide clean, fresh water at all times.
