

SEMINOLE FEED®

Seminole Feed® Equalizer

Seminole Feed® Equalizer is a ration balancer for growing, breeding, pleasure and performance horses. Equalizer can be fed with forage as the sole ration or used as a mixer to balance oats or supplement grain mixes. Equalizer provides a concentrated source of vitamins, minerals and quality proteins for super nutrition to complement your custom feeding program..

WHY SEMINOLE FEED® EQUALIZER?

Fixed Formula

Contains Ultra Bloom®, Ground Flax Seed & Soybean Oil

Vitamin E & Selenium Yeast

Yeast Culture

Chelated Trace Minerals

Yucca schidigera

GUARANTEED ANALYSIS

Crude Protein (min)	32.0%	Magnesium (min)	0.20%
Crude Fat (min)	5.0%	Manganese (min)	500 ppm
Crude Fiber (max)	5.0%	Zinc (min)	600 ppm
Lysine (min)	2.75%	Copper (min)	175 ppm
Methionine (min)	0.50%	Selenium (min)	2 ppm
Threonine (min)	1.65%	Cobalt (min)	2 ppm
Calcium (min)	3.50%	Iron (min)	300 ppm
Calcium (max)	4.50%	Iodine (min)	2 ppm
Phosphorus (min)	1.75%	Vitamin A (min)	30,000 IU/lb

Seminole Feed® Equalizer

Feeding Directions

Seminole Feed® Equalizer is a pelleted protein, mineral and vitamin concentrate for mixing with other quality ingredients to provide a nutritionally balanced ration for foals, weanlings, yearlings, broodmares, stallions and performance horses. Seminole Equalizer is scientifically formulated to help prevent nutrition related developmental problems of foals and to provide an optimum nutrient density for horses' reproductive, growth and performance requirements. Feed Seminole Equalizer according to the Daily Feeding Guide divided into two or more equal daily feedings. Provide clean fresh water at all times. After observing or weighing the horse for a period of time, increase or decrease the daily quantity of oats (and/or beet pulp) to obtain the desired body condition or body weight. Make all feed changes gradually, over a 7 - 10 day period. Changes in feeding rate should not exceed 1 pound per day for an individual horse. Provide a free-choice mineral supplement on a continuous basis that is made for horses, such as Seminole Grass Balancer 16:8 Horse Mineral. Equalizer weighs approximately 1.7 lb. per dry U.S. quart.

Daily Feeding Guide

Recommended Daily Feeding Rate in pounds of feed per day.							• Beet Pulp can be substituted for oats. Feed at the rate of 1/3 the recommended oat level daily. We recommend soaking the beet pulp prior to feeding.
Age or Status	Small Horses & Ponies (Under 800 lbs)		Average Size Horse (800-1200 lbs)		Large Horses (Over 1200 lbs)		
	Equalizer	Oats	Equalizer	Oats	Equalizer	Oats	<ul style="list-style-type: none"> • Horses that require a higher caloric intake for performance, weight gain or coat conditioning can be fed Seminole's Ultra Bloom®, a stabilized rice bran supplement at the rate of 1-2 pounds per day. • Foals not receiving adequate milk and their dams can benefit from substituting half of the recommended amount of Equalizer with Seminole's Foal Balancer Milk Pellets. • For creep feeding foals, mix 1/2 pound of Equalizer with 1/2 pound of Seminole's Foal Balancer Milk Pellets and 2 pounds of oats. Feed only as much of this creep feed mixture as the foal will consume in 24 hours.
