Timothy Pellets

Forage Supplement for All Livestock

Sun-Cured Timothy Hay

Highly Digestible Fiber Source

Highly Palatable

Low-Calorie Forage

Consistent Nutrition

Low Dust & Low Waste

Convenient & Economical

Since 1934, Seminole Feed's top priority is horse nutrition, and our goal is to provide you with the "World's Best Equine Feed". Seminole Timothy Pellets, one of our popular forage supplements, comes from Eastern Idaho's agricultural plains.

Grass forages and forage products such as timothy pellets provide the fiber your horse needs in a highly digestible form. When used to replace part of the forage in the diet, Seminole Timothy Pellets can provide the necessary roughage without excess calories or protein usually found in alfalfa forages.

Guaranteed Analysis -

Moisture (max)	_____	8.0%

Ingredients -

Sun-Cured Timothy Hay & Sodium Bentonite (as a binder).

Seminole Timothy Pellets - Forage Supplement for All Livestock

Forage First - Feeding the Horse

After water, forage is the next most crucial component of a horse's diet, and should be fed at a rate of 1.5 - 2% of body weight (BW) per day. Long-stemmed forages, such as pasture, hay, chopped forage, and hay cubes can be fed interchangeably on a pound-for-pound basis. Seminole Timothy Pellets are considered short-stemmed forage and should only replace a portion of the forage fed to the horse each day. Feed up to 1 - 1.5% of BW as pellets, along with 0.5 - 1% of BW supplied by long-stemmed forages. The tables below will assist you in calculating the appropriate quantity of forage for your horse.

Feeding Guidelines for Seminole Timothy Pellets				
Mature Body Weight (Lbs.)	600-800	800-1000	1000-1200	1200-1400
Maximum Amount of Seminole Timothy Pellets (Lbs.)	6 - 12	8 - 15	10 - 18	12 - 21
	<i>PLUS</i>	<i>PLUS</i>	<i>PLUS</i>	<i>PLUS</i>
Minimum Amount of Long-Stemmed Forage (Lbs.)	3 - 4	4 - 5	5 - 6	6 - 7
Recommended Daily Forage (1.5% - 2% body weight)	9 - 16	12 - 20	15 - 24	18 - 28

- Amounts of Seminole Timothy Pellets are on an as-fed basis
- To supply adequate forage, the combination of Seminole Timothy Pellets and Long-Stemmed Forage should add up to the Total Daily Forage Offered in the last row of the table
- Seminole Timothy Pellets weigh 1.1 pounds per dry US Quart
- Senior horses or those with dental issues may benefit from having the pellets soaked
- Clean fresh water must be provided at all times
- Increases in feeding rates should not exceed 1 pound per day
- Make all feed changes gradually over a 7 - 10 day period
- Postpone feeding a horse that has been exercised or is exhibiting pain, fever, or diarrhea

Replacement Guidelines Using Seminole Timothy Pellets to Replace a Portion of Long-Stemmed Forage			
	Hay	Alfalfa Cubes	Pasture
Seminole Timothy Pellets	1 Lb. Pellets per pound hay	1.25 Lbs. Pellets per pound of cubes	2 - 2.5 Lbs. Pellets per hour grazing

- Amounts of Seminole Timothy Pellets are on an as-fed basis
- Pasture intake is based on an 1100 Lb. horse eating 2% body weight during 12 hours of grazing

Notice: This product is perishable. Store this product in a dry, well ventilated area protected from animals and insects. Do not feed this product if it is moldy, spoiled, infested or contaminated as it may cause illness or death to your animals. No liability will be accepted for direct, incidental or consequential damages resulting from any use inconsistent with the feeding instructions. Always feed by weight not volume. When feeding by volume, periodically weigh the feed to verify your animal is receiving the proper amount.

For the purposes of elite equine competition, this forage supplement is recognized as free from restricted and prohibited ingredients when fed as directed.

Seminole Quality Guarantee - Seminole Feed® strives to provide a world class product for your equine partner, adhering to strict quality control and safe-feed production standards. If you're not satisfied, we're not satisfied. Should the quality of this product not meet your expectations, return it within 30 days with proof of purchase to your Authorized Seminole Feed® Dealer for a complete refund or replacement.

Considerations for the Senior Horse

When addressing the unique needs of a senior horse, Seminole Timothy Pellets can provide an excellent source of low-calorie supplemental forage. Horses with poor dentition or those predisposed to choke can benefit when forage replacements, such as cubes and pellets, are soaked. Use the table provided below as a guide.

Soaking Seminole Timothy Pellets <i>Soak pellets for a minimum of 10 minutes & feed immediately</i>			
Temperature of Water	Pounds of Pellets per Quarts of Water	Soak Time	Consistency
Cold ~ 60° F	1 Lb. / 1.5 Qts.	10 Minutes	Moist & Moderately Broken Apart
Warm ~ 90° F	1 Lb. / 1.5 Qts.	10 Minutes	Moist & Mostly Broken Apart
Hot ~ 113° F	1 Lb. / 1.5 Qts.	10 Minutes	Moist & Mostly Broken Apart

- Results may vary based on amount of pellets, water temperature, and water volume
- Only soak what will be immediately consumed
- Do not soak Seminole Timothy Pellets longer than 30 minutes to avoid mold and fermentation of product
- Feed senior horses smaller meals more frequently to reduce spoilage and waste
- To encourage consumption, adjust the water volume based on the horse's preference

Additional Bagged Forages Offered By Seminole:

Seminole Alfalfa Pellets

Protein (min) - 17% | Fat (min) - 1.5% | Fiber (Max) - 30%

Seminole Alfalfa Cubes

Protein (min) - 16% | Fat (min) - 1.5% | Fiber (Max) - 30%

Seminole Alfalfa Mini Cubes

Protein (min) - 16% | Fat (min) - 1.5% | Fiber (Max) - 30%

Seminole Timothy & Alfalfa Cubes

Protein (min) - 14% | Fat (min) - 1.5% | Fiber (Max) - 34%

Seminole Orchard Pellets with Apple Flavor

Protein (min) - 10% | Fat (min) - 1.5% | Fiber (Max) - 34%
