INGREDIENTS

Dried Beet Pulp, Soybean Hulls, Stabilized Rice Bran, Dehydrated Alfalfa Meal, Wheat Middlings, Dehulled Soybean Meal, Ground Oats, Cane Molasses, Soybean Oil, Yeast Culture, Ground Flax Seed, Selenium Yeast, Dried Saccharomyces Cerevisae Fermentation Solubles, Brewers Dried Yeast, Biotin, L-Lysine, DL-Methionine, Monocalcium Phosphate, Dicalcium Phosphate, Calcium Carbonate, Salt, Propionic Acid (Preservative), Phosphoric Acid, Hydrated Sodium Calcium Aluminosilicate, Copper Sulfate, Zinc Oxide, Ferrous Sulfate, Manganese Sulfate, Calcium Iodate, Cobalt Carbonate, Copper Proteinate, Manganese Proteinate, Zinc Proteinate, Cobalt Proteinate, Magnesium Oxide, Vitamin A Supplement, Vitamin D₃ Supplement, Vitamin E Supplement, Folic Acid, Niacin, Riboflavin Supplement, Calcium Pantothenate, Pyridoxine Hydrochloride, Choline Chloride, Thiamin Mononitrate, Vitamin B₁₂ Supplement.

Seminole Feed® Senior Formula

FEEDING DIRECTIONS

Seminole Senior Formula is a premium quality, complete feed scientifically designed for aged horses. Start the feeding program using the feeding directions for the weight and activity level of the horse. After observing and/or weighing the horse for a period of time, increase or decrease the daily feeding rate to obtain the desired body condition or body weight.

Seminole Senior Formula can be fed as the sole ration, at a rate up to 2% of the horse's body weight per day. Feed hay and/or equivalent pasture at the rate of 1 to 2 pounds per 100 pounds of body weight daily. If your aged horse is unable or has a dental condition which would prevent the chewing or swallowing of hay, pasture or other long-stemmed forage, it is recommended that an alternative form of long-stem fiber be provided, such as hay cubes or chopped hays, which can be soaked and safely fed. This feed can also be offered as a mash with the addition of water. When the amount of Seminole Senior Formula exceeds 1.5% of the horse's body weight, it should be divided into 3 or more feedings per day.

Do not feed Seminole Senior Formula on a free choice basis. Feed at regular times, with two or more equal feedings per day. Make all feed changes gradually, over a 7-10 day period. Increases in feeding rate should not exceed 1 pound per day for an individual horse. Delay feeding a horse that has been exercised or is exhibiting pain, fever or diarrhea. Seminole Senior Formula weighs approximately 1.6 pounds per dry US quart. Provide a free choice horse mineral such as Seminole Grass Balancer 16:8 Mineral or Alfa Balancer 12:12 Mineral on a continuous basis. Provide clean, fresh water at all times.

FEEDING RATES BASED ON POUNDS OF FEED PER DAY. FEEDING RECOMMENDATIONS ARE BASED ON HORSE WEIGHT AND ACTIVITY LEVEL.

Mature Body Weight (lbs.)		100-200	200-400	400-600	600-800	800-1000	1000-1200	1200-1400	1400-1600	1600-1800	1800-2000

**For feeding instructions for this category and weight of horse, please contact our nutritionist at 800-683-1881, ext. 131 or Nutritionist@SeminoleFeed.com.

- For horses who need additional protein for growing, gestating, or lactating, supplement with Seminole Equalizer™.
- For horses who need additional calories for performance, weight gain or coat conditioning, supplement with Seminole Ultra Bloom® or Seminole Rice Bran Oil.
- If you cannot feed the minimum recommended feeding rate, please contact our nutritionist.
- These feeding guidelines are suggestions based on horse weight and activity level, but adjustments may need to be made to achieve desired body condition.
